

OVERVIEW

We are here to relieve your pain, technically. When you come to us with a problem to solve, we listen. We will consider all possible solutions before choosing the one that is the most straightforward, the least invasive, and fits the best in your technology stack. We use technology to support your mission, we use technology to save you time and money, and we don't use a technology just because it is trendy.

CORE COMPETENCIES

- ❖ Develop new customized software applications.
- ❖ Enhance and modernize existing software applications.
- ❖ Implement Cloud solutions for new and existing software applications.
- ❖ Implement Commercial Off-the-Shelf software applications.
- ❖ Provide architectural design to help with achieving the modernization of your technology stack.
- ❖ Provide technical support services for the sustainment and development of existing software applications.

DIFFERENTIATORS

- ❖ Our management team has close to 20 years of experience developing software and providing technical expertise for numerous agencies in the Public Sector: USDA, USPS, CPSC, Quantico, Pentagon, NGA, SEC, U.S. Coast Guard, U.S. Department of State, and DIA.
- ❖ We have supported projects that require Top Secret clearance.

- SWaM** Valid Through 3/24/2027

CERTIFICATIONS

- Microsoft:** MCPD Web Developer
- Microsoft:** MCPD SharePoint Developer
- Microsoft:** MCTS Microsoft Dynamics CRM
- HPE:** Vertica Big Data Solutions
- HPE:** Autonomy IDOL Search Configuration Specialist
- Sun Microsystems:** Java Certified Programmer

PAST PERFORMANCES

DEFENSE INTELLIGENCE AGENCY

Develop Advanced Global Intelligence Learning Environment (AGILE) 2.0. AGILE 2.0 encompasses replacing a legacy Flash-based customized SAP Learning Management System with Blackboard while providing integration of Blackboard with an existing PeopleSoft HR application.

U.S. DEPARTMENT OF STATE

Develop a suite of Enterprise Search applications for the Diplomatic Security, CTO Office. The Batch Search application we developed for the Afghanistan Evacuation effort in August 2021 has helped save many American lives.

U.S. COAST GUARD

Lead the technical support services for the continued sustainment and development of the Communication Station Automation System (CSAS). The IT Consolidation effort we have led in January 2022 will potentially save the U.S. Coast Guard \$500K+ annually.
